Case 19-51050-BLS

Hello, my name is Christopher M. Soulier and the purpose of this letter is to respond in the very best I know how. I am writing on behalf of myself and without legal representation because I do not have the means to do so through a legal firm.

First, I would like state that I am a victim in this case. I was approached by a late friend of mine, Pete Viater, a retired bank president with a stellar reputation about the company Woodbridge as an alternative investment for my self-direct Roth IRA in early 2016. I trusted my friend as a professional and after he presented me with information about the company and the process, I decided to direct my funds from my IRA to Woodbridge through the Provident Trust Group. I was having a very good experience with the company and as promised, I was receiving interest payments from my investment on time and monthly.

I was later approached by the company and Pete Viater about becoming an affiliate. After my concerns were addressed by Woodbridge and Pete Viater in regards to not needing to have a securities license to be an affiliate and after continuing to have a good experience with the product and the service, I agreed to share Woodbridge with some of my friends and family. This was not part of my business model and I was not a financial advisor in any capacity. I feel misled and was taken advantage of for my reputation in the community and my relationships.

When I had found out that Woodbridge had filed for bankruptcy, I was very upset, as not only did I lose my entire Roth IRA, but my friends and family lost theirs as well. As time has since passed with this case, I was shocked to have found out what was happening internally with Woodbridge of Companies. At no time did I have any knowledge of what was happening.

In closing, I would like to ask that I be relieved of any financial liabilities with regards to this case and any future liability. I have lost all of what I had in my Roth IRA (my only retirement) and have to look at friends and family that have lost money as well. I have also lost an important role in my Native Community, where I served as a board member of our tribes business development corporation for five years. Although my reputation has sustained, I have lost the opportunity to serve the community in economic development where I was raised.

Sincerely,
